

# F-1 Video Field Recorder

HDV DV 2+2ch AUDIO USB 2.0 i.LINK

The accelerated workflow of the F-1 - from capture to editing.

Begin editing faster than ever since your recorded data on the F-1 is quickly accessible directly via most non-linear video editing systems.

## F-1 workflow from capture to Blu-ray / DVD authoring.

⏪ ⏹ ⏩ **Import to a non-linear video editing system** ⏪ ⏹ ⏩

The F-1 and/or the removable HDD can be connected directly to a Mac or PC via USB 2.0, eliminating the need for capturing in real-time.

Non-linear Editors	How to import “.m2t” file *	Approximate time required to capture 1 minute video.**
Canopus EDIUS Pro	Add Files → Open	1 sec.
Adobe Premiere Pro	File → Import → Open	10 sec.
Avid Liquid Pro	File → Import → Media → Open	20 sec.
SONY Vegas Pro	File → Import → Media → Open	1 sec.
Apple Final Cut Pro	Convert to “.mov” file using Clip Wrap***, and File → Open	10 sec.

\* Import process may differ depending on software version.

\*\* Approximate time required for capturing is dependent on computer specs such as CPU speed, available memory, etc.

\*\*\* ClipWrap is shareware software for Final Cut Pro and is available at <http://www.clipwrap.com>
